Claim(s) is/are objected to by the Examiner. 4D □ The drowing(s) filed on is/are: a) □ accepted or b) □ objected to by the Examiner.	
THE MAILING DATE OF THIS COMMUNICATION. Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. If the period for reply is specified above is less than thirty (30) days, a reply within the set or reply with the set of extended period for reply will, by statute, cause the application become ABANDONED (35 U.S.C. § 133). Failure to reply within the set or extended period for reply will, by statute, cause the application communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). Status 1) □ Responsive to communication(s) filed on 23 May 2000. 2a) □ This action is FINAL. 2b) □ This action is non-final. 3) □ Since this application is in condition for allowance except for formal matters, prosecution as to the merit closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213. Disposition of Claims 4) □ Claim(s) 1-50 is/are pending in the application. 4a) Of the above claim(s) is/are withdrawn from consideration. 5) □ Claim(s) is/are allowed. 6) □ Claim(s) is/are rejected. 7) □ Claim(s) is/are objected to. 8) □ Claim(s) 1-50 are subject to restriction and/or election requirement. Application Papers 9) □ The specification is objected to by the Examiner.	
This action is FINAL. 2b) ☐ This action is non-final. 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merit closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213. Art Unit: 2832

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in response to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10, 23, 24, 27, 28, 29, 36, 37-43 are, drawn to a resistor having a terminal with a concave groove.

Group II, claim(s) 11-14 are, drawn to a resistor having a terminal with an L-shaped.

Group III, claim(s) 15-20 and 30 are, drawn to a resistor having four terminals (two on top and two on bottom).

Group IV, claim(s) 21-22, 31 and 35 are, drawn to a resistor having a terminal having a protrusion.

- 2. The inventions listed as Groups I, II, III and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The technical features of a concave grove, an L-shape, four terminals and protrusions are distinct so that the Groups are not linked.
- 3. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Within Group I, there are: Species I a wire resistor and Species II a sheet/planar resistor.

Page 3 Application/Control Number: 09/509,928 Art Unit: 2832 Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a). The claims are deemed to correspond to the species listed above in the following manner: 4. Within Group I: Species 1, claims 1-5 (and claim(s) depending thereto) and Species 2, claims 6-9 (and claim(s) depending thereto). The following claim(s) are generic: None. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: In Group I, species 1 and Species 2 are linked only by the grooved terminals. However, this is not a special technical feature because it is known (as evidenced by Jaselii (4,588,976) and Sakai (4,509,034)) so by definition it cannot advance the art and be a special technical feature. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the 6. inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
